# Jacob the Naughty Koala

## BOOKR Class Teacher Guide

**Run time:** 4 minutes

**Writer:** BOOKR Kids

**Illustration:** Ágnes Berthóty

**Narration:** Benjamin Groff

**Ages:** 9-12

**Language level:** Beginner

### **Description:**

Jacob is a small koala living his life the fullest. He is always having a great adventure. In this book learners get to know koalas: the parts of their body, their eating habits and lifestyle.

### **Focus of the games:**

1. reading comprehension: the lifestyle of koalas
2. gap-filling activity with the adverbs of frequency
3. word search for vocabulary building

## Activity Ideas for Teachers

- Explore Australia's wildlife based on this book. Learn about koalas, kangaroos, and the platypus. Encourage the preparation of a poster. Ask your students to put the animals on the map and decorate it with related illustrations.
- How to take care of the eucalyptus plant indoors? Prepare a guide for plant owners, use the adverbs of frequency learnt from the book.
- Use the first worksheet attached to learn the body parts of a koala. Label the koala and colour the picture just for fun.
- Use the second worksheet and collect ideas based on the book. What do koalas like doing? Fill the gaps and use "like" and "don't like" in full sentences.

## Activity Ideas for Parents

- Describe kangaroos based on the second worksheet. Ask your child to make the same poster. Ask him/her to draw a kangaroo and to write sentences about their likes and dislikes. Then, your child can easily hold a mini-presentation for the family which improves their speaking skills.
- What is a “pouch”? Help your child make a mini-research and look for animals who have got one.
